

Problem Loading AutoCAD LT 2012

Article Number: 198 | Rating: Unrated | Last Updated: Wed, Jul 19, 2017 at 2:13 PM

If AutoCAD LT 2012 crashes out of the splash screen, or is stuck initializing, and will not load then check the *Windows update history* for Microsoft .NET updates. If there is a recent update try fixing or rolling back to the previous version. This fix has been applied to Windows 7, where the update is visible in the *Programs and Features* list (in Windows 10 check the *update history*).
